**NOTICE**

In the pre-bid Conference held on 27.4.2011 at 3.00 p.m. in the Chamber of RPF-C-I, Regional Office, Tambaram, Chennai – 45, the representatives who attended the pre-bid Conference have pointed out certain discrepancies, sought for clarifications and given some suggestions. All the points raised including suggestions given by the representatives in the Meeting have been considered and the decisions taken thereon are given against each item:

S.No.	Discrepancies pointed out	Clarifications
1.	There is a variation in specification for workstation in page no.74 and page no.104. In page No.74 it is stated as pre-laminated particle board for work surface whereas in page No.104 it is mentioned as postformed top.	The specifications at both Page 74 and 104 may be read as— “Workstation consists of work surface of 25mm thick pre-laminated particle board having PVG edge lapping of 2 mm thick on all exposed edges and 0.6mm on all butt edges and pressed at 200 degrees centigrade with hot melt glue on edge banding machines. The worktop shall be supported by cantilever / brackets made of MS steel duty powder coated.”
2.	Specification mentioned regarding providing of Chair for RPF-C in page No.89 and 115 are not matching.	The specification at both Page No.89 and page No.115 [Item No.22(b)] may be read as— “Premium Executive high back revolving chair, pure leather chair specially designed for CEO of organisation. Its special feature are steel chair having complete steel frame body of 3/4” round CRC pipe, the cushioning is done on the ring type spring of high quality fitting on canvas and coir duly upholstered with 50mm thick pin hole rubber cushion plus 20mm thick polyfill sheet having melamine finish wooden arms

		and base to give that unique look, its fitted with knee tilt mechanism for extra sitting comfort.
3.	For RPFs visitors Chairs specifications mentioned at page No.89 and page No.115 are not matching.	The specifications at page No.89 and page 115 may be read as— “Upholstery/Frame: Leatherite/Fabric with double ply with foam & poly fill. Arms: Wooden Arms with Melamine polish with chrome plated end caps on both handles. Base: Fixed Chrome plated base.”
4.	There is variation in the specification stated in page No.91 and page No.117 for multi-seater chairs.	The specifications for providing multi-seater Chairs at page No.91 and 117 may be read as— “Multi-seater with perforated sheet duly powder coated 3 / 2 / single seater(s) with arms”
5.	For staff and supervisor chair, specifications at page No.90 and page No.116 are mismatching.	The specifications for staff/supervisor chair at page No.90 and page No.116 may be read as— “Workstation Revolving Medium Back Chair with push mechanism, polypropene seat and back cover, molded PU foam in seat and back, PU armrest and resting on Chrome plated base (height adjustment) gas lift 3 pc.”

2. Suggestions made for providing metallic keyboard tray instead of postformed, partition for workstation of 25mm thickness for use of tile based partition instead of panel based for both 50mm as well as 60-70mm thickness and over head storage for each workstation and back storage, have been considered and all the suggestions stand rejected.
